

Saltopus

Saltopus, one of the first dinosaurs to live
on earth—

He was smaller than most chickens,
He was faster than the dickens,
Scampering from bush to bush—
Silly little Saltopus!

Chorus: Saltopus, Saltopus,
He came small but he came first,
Scurrying from bush to bush
Surely must be Saltopus.

He was tough and he was quick. He knew every
jungle trick.

If something tried to grab him, hey!
He'd just hop, skip, jump away.
Scampering from bush to bush—
Silly little Saltopus!

Repeat chorus.

His jagged teeth were sharp as pins,
He ate what he could gather in.
Snakes and lizards, insect meat,
Were treats for Saltopus to eat!
Scampering from bush to bush—
Silly little Saltopus!

Repeat chorus.
